General Instructions

1. All scholars shall prepare their presentations in accordance with the above format and the specific requirements of their respective RDC meetings.
2. The presentation shall contain accurate, updated, and verifiable information.
3. Research scholars shall ensure that the research topic, objectives, methodology, and progress are presented clearly and systematically.
4. Scholars shall include relevant tables, graphs, diagrams, references, and supporting evidence wherever necessary.
5. Details of publications, paper presentations, and patents must relate to the Ph.D. research period and should be supported by appropriate documentary evidence, wherever required.
6. The presentation file shall be kept ready in PowerPoint format and submitted to the concerned Department/Research Coordinator before the scheduled RDC meeting, as instructed by the Department.
7. Research scholars shall comply with any additional instructions issued by the concerned Department or the RDC.

All Deans, Heads of Departments, Research Supervisors, and concerned coordinators are requested to communicate these instructions to the respective research scholars and ensure compliance.

This notice shall be applicable to RDC presentations conducted hereafter, subject to any specific instructions issued by the competent authority.
